Water Purifier

Tankless

LG **PuriCare™** Self-Service Tankless Water Purifier

LG PuriCare™

A FRESH TAKE ON SELF-SERVICE TANKLESS WATER PURIFIER

TOTAL SELF-SERVICE

Ultimate Flexibility and Convenience

Self-service filter subscription plan allows you to change the filter anytime you want.

Auto Sterilization

Internal Sterilize

Automatically sterilize Internal water pipe once a week (99.99%) or Sterilize manually whenever you want.

Outlet Sterilize

Sterilization water outlet whenever you want (99.99%)

Easy Filter Replacement

The easy knot design makes it easy to replace the filters yourself, just twist and pull to replace the filter with a fresh one in a matter of seconds.

Filter Subscription

LG is the first to market with a filter subscription service that ships a replacement filter to your home every six months, so you don't have to place an order and wait for it to arrive.

Directly Filtered from the Tap

No more stagnant water. Directly filters water straight from the pipe into your cup, giving you fresh-tasting water every time

No Water Tank Contamination

Hygienic water for you anytime. Tankless technology eliminates any concern about microorganism formation.

Unlimited Water Supply

Enjoy a continuous drinking water supply even in times of high demand without the limitations of a water tank.

Instant Heating & Cooling

Tankless water purifier gets rid of the need to constantly reboil water, thus saving energy.

TANKLESS (INSTANT HOT & COLD WATER)

Just One Touch To Enjoy Clean and Fresh Water Instantly

LG PuriCare™ Tankless water purifier provides clean drinking water by using direct water filtration without a water tank. It only takes one simple touch to enjoy hot, cold, and ambient water instantly. Going tankless also utilizes the latest technology trend, which eliminates the concern of microorganism formation.

Efficient Energy Saving

LG PuriCare™ Tankless Water Purifier adapts the advance technology of Smart Inverter Compressor and Induction Heating (IH) System for users to enjoy hot and cold water in an energy saving way. LG PuriCare™ is also the first in the industry to provide 10 years compressor warranty* for water purifier.

*Excluded labour, Transportation, Gas refilled or additional parts

4-STAGE ALL PURI FILTER SYSTEM

Old water pipes can contaminate water with heavy metals like lead and mercury, which can cause health problems, but the LG PuriCare™ thoroughly sterilizes your water in four steps. The PuriCare removes 9 heavy metals, bacteria, and harmful contaminants, all while leaving beneficial minerals like sodium and potassium behind for safe, delicious water, every time.

*9 types of heavy metals: Mercury, Lead, Arsenic, Cadmium, Iron, Aluminum, Copper, Manganese, Zinc. Issued by the Korea Water Purifier Industry Cooperative according to the Law for the management of Drinking water. This is based on the quality inspection report, and may differ depending on the actual use environment. The pore size of UF filter (2nd stage) is 0.1-0.3µm, fine particles and bacteria more than that size can be removed.

Pre-Carbon Block+ (9 Heavy Metals Removal)

Stage 1

Remove 9 types of heavy metals
(Mercury, Lead, Arsenic, Cadmium, Iron, Aluminum, Copper, Manganese, Zinc)

Ultra Filtration (Virus Removal)

Stage 2

Removal of various germs and fine particles

Stage 3

Remove Norovirus (99.99%)

Stage 4

Removal of harmful contaminants

UV-LED sterilization

Sterilize inside the outlet
10 minutes every hour.

Stainless Steel Pipe

To reduce worry of contamination and best hygiene.

CUTTING-EDGE TECHNOLOGY OFFERING ADVANCED SMART FEATURES.

LG ThinQ™

Connect LG PuriCare™ Tankless water purifier to LG ThinQ™ via Wi-Fi to monitor your water purifier to detect product, water consumption and UV LED monitoring.

Filter

Filter Change Alert

Users can easily monitor the condition of the filter via an indication lamp, ensuring that the performance of the water purifier is always in tip-top condition.

4 DIRECTIONS MOVING TAP

It is easy to access drinking water with 4 Directions moving tap. It will detect the cup and adjust the height automatically.

The water tap (or moving tap) stops when the sensor behind the water outlet touches the cup.

Up & Down Auto Moving Tap

Automatically moves up and down, so you don't have to touch it! It is hygienic because water does not splash everywhere. Especially with hot water, you can reduce the likelihood of burns.

Auto Cup Sensing

- Detect the cup and automatically stop
- Dispense water at the correct height of cup

Left & Right Moving Tap

Up & Down Auto Moving Tap

Swing Tray 180° Rotate

Hot Water Control

Hot water is supplied at 3 different temperatures for everyday household usage. From warming milk to making a cup of tea or hot coffee, LG PuriCare™ Tankless water purifiers saves you from the hassle in one touch!

*Child Safety Lock to prevent accidental hot water dispensing.
*Refer to product manual on note of hot water

Volume Control

User can get their preferred volume of water with preset function of 120ml, 250ml, 500ml and 1000ml.

LG PuriCare™

**SLEEK & STYLISH.
PERFECTLY FIT INTO EVERY
CORNER.**

Compact and Stylish

17cm Slim Design

The super slim design of LG PuriCare™ Tankless water purifier can be installed in any part of your kitchen without hassle.

Flexible Installation

The innovative slim design and Left & Right Moving Tap enables flexible installation in every corner. horizontal or vertical? It's your call.
